**Subject:** Oops--I forgot to add, and I asked this of Jeff, as well:

Can we put Gold King Mine on the EPA home page? Lots of people are struggling, trying to find the website. They often don't think of using EPA search. ☺ And they find lots of results in Google, but the new national site isn't on the list of results yet. Fortunately the old R8 page makes the first page of results, and it redirects to the new site.
